

XF

Introducing Greenleaf's **Excelerator[®] XF Extreme-Feed Mill**

Maximize your productivity
in high-feed milling of hardened steels and high-strength alloys.

Maximum amount
of cutting teeth
per diameter for
smoother, more
productive machining

Cutter bodies
manufactured from
alloy steel and heat
treated for strength

Diameters ranging
from 1" to 12"

Cutter designed for use with
WG-300[®]/WG-600[®] whiskered
ceramic inserts or a variety
of Greenleaf's advanced
carbide inserts

Large chip
gullets for
maximum chip
evacuation

Always on the cutting edge of productivity, Greenleaf introduces the **Excelerator[®] XF Milling Cutter System**. The **Excelerator[®] XF** is designed for high-feed milling on a wide variety of materials including hard steels and high-temp alloys using Greenleaf's advanced ceramic and carbide inserts.
